26th Annual Scientific Meeting of the European Association for Osseointegration

MADRID
From October 5th to October 7th, 2017
Invited region: Latin America

Twenty-Five Years of Implant Dentistry. What have we learned?

www.eao-sepes2017.com

With a Joint Symposium

www.sepa.es
WELCOME TO MADRID

On behalf of the European Association for Osseointegration (EAO) and la Sociedad Española de Prótesis Estomatológica y Estética (SEPES) we are delighted to announce details of the 26th EAO Annual Scientific Meeting and 47 Congreso Anual de SEPES. This will be a joint congress, and will take place in Madrid from October 5th to October 7th, 2017.

This new collaboration will bring together the international audience which has gathered at EAO annual congresses over the past 25 years with specialists from the SEPES community. In addition, the EAO and the Spanish Society of Periodontology (SEPA) have joined forces to organise the fifth SEPA European Symposium under the aegis of the EAO-SEPES joint meeting. The SEPA Symposium will take place on Saturday October 7th, and will run dedicated sessions throughout the day.

The scientific committees of the EAO, SEPES and SEPA have prepared an exciting programme covering several topics which will focus on the question: Twenty-five years of Implant Dentistry. What have we learned?

The congress programme will feature world-renowned speakers; interactive elements which will involve the audience; and new and innovative formats such as surgical video sessions.

We are also very pleased and honoured to welcome Latin America as a guest region during the congress with the contribution of both Spanish societies SEPES and SEPA. The EAO-SEPES joint meeting will provide a unique opportunity for researchers and clinicians to present their scientific studies, both as posters and during oral presentation sessions.

The congress will take place in Madrid, close to the city centre, enabling you, your family and friends to enjoy many of the city’s attractions during your visit. On behalf of the EAO-SEPES joint meeting and the EAO-SEPA European symposium, we very much hope you can join us.

We look forward to welcoming you to Madrid for what promises to be an exciting congress.

ALBERTO SICILIA
Chair of the EAO Congress

JAIME A. GIL
Co-chair of the EAO Congress

MARIANO SANZ
Co-chair of the EAO Congress

NACHO RODRIGUEZ
Chair of 47 SEPES’s Congress

JAUME LLENA
Co-Chair of 47 SEPES’s Congress

ADRIÁN GUERRERO
Chair of the SEPA Symposium

### MAIN SESSION 3

**EAO-SEPA EUROPEAN SYMPOSIUM**
Diagnosis and treatment planning in implant dentistry in light of the prevalence of peri-implant diseases

### ORAL COMMUNICATION

- **CERTIFICATION WORKSHOP**
  - Learn how to obtain the EAO’s prestigious Certificate in Implant-based Therapy

### HANDS-ON SESSIONS

- **ARENA 6**
  - How to approach the treatment of the patient with hopeless implants

### AWARDS

- **CLOSING**
  - **ARENA 6**
    - Liaison for the best patient service. Analogue versus digital
  - **CLINICIANS & TECHNICIANS 2**
  - **2D INTERACTIVE SURGICAL VIDEO SESSION 3**
    - EAO-SEPA EUROPEAN SYMPOSIUM
    - The biological and clinical keys for periodontal bone and peri-implant regeneration

### MAIN SESSIONS

- **These plenary sessions will focus on three major topics and include a series of interactive debates.**

### ARENA

- **These sessions will explore key topics analysing 25 years of implants to answer the question “How far have we come?”**

### INTERACTIVE SURGICAL VIDEO SESSION

- **An interactive and informative session featuring in-depth discussions of videos showing surgical cases.**

### DIAGNOSIS SESSION

- **Hear different approaches and treatment plans being discussed for a variety of straightforward and complex cases.**

### PROSTHODONTICS & AESTHETIC INTERNATIONAL JOURNEY (P&AJ)

- **SESSION TRANSLATED IN SPANISH**

### ORAL COMMUNICATION (IN ENGLISH)

- **Hear about exciting new research findings selected from conference abstracts as presenters compete for prizes.**

### SEPES ORAL COMMUNICATION (IN SPANISH)

- **Presentation of scientific and clinical oral communications and posters. Speakers will compete for SEPES prizes. Find out more at: www.sepes.org**

### EAO-SEPA EUROPEAN SYMPOSIUM

- **Three sessions organised jointly by the EAO and SEPA on topics for delegates interested in both implantology and periodontology.**

### INDUSTRY SYMPOSIAS

- **Learn more about key subjects in these industry sponsored symposia featuring research and innovation.**

### HANDS-ON SESSIONS

- **The “hands-on” sessions promote new techniques and offer high-level practical training under the guidance of renowned experts. These courses are organised by industry partners.**
Since its inception in the late 1980s, the EAO has been a forum for European researchers and clinicians. In recent years, increasing numbers of our members from non-European countries have joined. We are delighted and honoured to welcome to our ranks so many members from South/ Central America, the Middle East, Eastern Europe and Asia.

As a mark of our recognition and appreciation of this, and because SEPES and SEPA both also have members from this region, the EAO has chosen to welcome Latin America as a guest region during the joint meeting.

Delegates from Latin America (individual countries listed below) will be offered registration fees at discounted rates which are normally reserved for members only, and can register for 290€ instead of 600€ (early bird).

In addition, a section of the exhibition area will be dedicated to a ‘Latin American Corner’ where regional associations can showcase their activities. Cultural events will also be organised to encourage exchange and networking between delegates from different countries.

SIMULTANEOUS TRANSLATION
DURING THE MEETING

Most sessions are presented in English and translated in Spanish.
Thursday October 5th
AFTERNOON

10:30 › 12:30  Satellite industry symposia  See page 12

13:00 › 14:45  MAIN SESSION 1
From standard to advanced protocols of implant placement
CHAIR
Björn Klinge (Sweden)
CO-CHAIR
Pascal Valentini (France)

The Brånemark legacy, the conservative approach
Marc Quirynen (Belgium)
Evolution of surgical protocols in implant dentistry
Göran Urde (Sweden)
Flapless, immediate implant placement and immediate restoration
Arndt Happe (Germany)

Debate: When should we follow each approach?

15:15 › 16:45  ARENA 1
Evolution of bone regenerative protocols in implant dentistry. Past, present and future
CHAIR
Henning Schliephake (Germany)
CO-CHAIR
David Nisand (France)

Use of autogenous bone grafts
Federico Hernandez-Alfaro (Spain)
Use of bone substitutes and barrier devices
Istvan Urban (Hungary)

DIAGNOSIS SESSION 1
Everything begins with the smile. Aesthetic diagnosis as a keystone of the treatment planning in implant dentistry
CHAIR
José Manuel Navarro (Spain)
CO-CHAIR
Jaime Jiménez (Spain)

The analogue fundamentals
Mauro Fradeani (Italy)
The digital advantages
Christian Coachman (Brazil)

15:15 › 19:00  SEPES ORAL COMMUNICATIONS
Presentation of scientific and clinical oral communications and presentation and defence of scientific and clinical posters. The best presentations will be awarded SEPES prizes.

17:00 › 19:00  Satellite industry symposia  See page 12

19:00 › 20:00  SEPES General Assembly

Evening  Faculty and Members’ Dinner  See page 20
Friday October 6th
MORNING

09:00 – 10:30

**INTERACTIVE SURGICAL VIDEO SESSION**

The treatment of the anterior maxilla with deficient availability of bone

**CHAIR**
Ronald Jung (Switzerland)

Joseph Kan (USA)
Luca De Stavola (Italy)
Markus Hürzeler (Germany)

*Debate and vote*

09:30 – 10:30

**P&AIJ SESSION 1**

The role of provisional restorations in aesthetic implant-supported prosthetic rehabilitations

**CHAIR**
Oscar Gonzalez (Spain)

Importance of implant position and emergence profile, the role of provisional restoration
Eva Berroeta (Spain)

Tissue management in the anterior zone – when, why and how to achieve it in the area around implants
Victor Clavijo (Brazil)

**MASTER CLINICIAN SESSION**

Get a taste of the future EAO Master Clinician Courses topics

**CHAIR**
Gil Alcoforado (Portugal)
**CO-CHAIR**
Türker Örnekol (Turkey)

The formulation of a treatment plan: planned road map or extemporaneous improvisation?
Stefano Gracis (Italy)

New perspectives on ridge augmentation
Istvan Urban (Hungary)

11:00 – 12:30

**ORAL COMMUNICATIONS**

The EAO-SEPES joint meeting encourages researchers and clinicians to present, discuss, and exchange new research results within the field of implant therapy and related disciplines via submission of scientific abstracts. During the oral communication sessions, delegates can hear short oral presentations from the authors whose abstracts were rated highest by the Abstract Committee.

11:00 – 12:30

**MAIN SESSION 2**

Evolution of implant prosthodontics

**CHAIR**
Irena Sailer (Switzerland)
**CO-CHAIR**
Jörg Strub (Germany)

Is conventional still future-oriented?
Stefan Wolfart (Germany)

Is digital the new conventional?
Ricardo Mitrani (USA)

12:30 – 13:30

**EAO General Assembly**
Friday October 6th

**AFTERNOON**

### ARENA 2

**Insights into surgical approach to the treatment of peri-implantitis**

**CHAIR**
Tord Berglund (Sweden)

**CO-CHAIR**
Adrián Guerrero (Spain)

- Apically positioned flaps and implantoplasty
  Frank Schwarz (Germany)
- Flap design based on peri-implant defect characteristics
  Alberto Ortiz (Spain)

### P&AIJ SESSION 2 *

**Avoid nightmares when restoring the edentulous upper jaw. Is the material the key factor?**

**CHAIR**
Jaime A. Gil (Spain)

**CO-CHAIR**
Christoph Hämerle (Switzerland)

- Full arch ceramo-metal restorations
  Gaetano Calesini (Italy)
- Full arch zirconia rehabilitations
  Wael Att (Germany)

### ARENA 3

**How to choose the proper connection and abutment**

**CHAIR**
Bjarni Pjetursson (Iceland)

- External connections and no abutments
  João Caramês (Portugal)
- Internal connections and abutments
  Xavier Vela (Spain)

### ORAL COMMUNICATION

The EAO-SEPES joint meeting encourages researchers and clinicians to present, discuss, and exchange new research results within the field of implant therapy and related disciplines via submission of scientific abstracts. During the oral communication sessions, delegates can hear short oral presentations from the authors whose abstracts were rated highest by the Abstract Committee.

### ARENA 4

**What are the limits of immediate implant placement and immediate restoration?**

**CHAIR**
Jan Cosyn (Belgium)

- The socket without buccal bone wall
  Paolo Fernando Mesquita (Brazil)
- The approach to posterior wide sockets
  Otto Zuhr (Germany)

### P&AIJ SESSION 3 *

**The combination of dental implants and orthodontic therapy in the functional rehabilitation of partially edentulous patients**

**CHAIR**
Jaume Llena (Spain)

- Orthodontic therapy with the aid of implants: advantages and limitations
  Marco Rosa (Italy)
- The use of implant-supported prostheses to restore function after orthodontic therapy
  Javier Casas (Spain)
  Cristina Suarez (Spain)

### BATTLE OF CONCEPTS

**The restorative treatment of the partially edentulous periodontitis patient**

**CHAIR**
Stefan Fickl (Germany)

**CO-CHAIR**
Iva Milinkovic (Serbia)

- Tommie Van de Velde (Belgium)
- Ignacio Sanz Sanchez (Spain)
- Ignacio Sanz Martin (Spain)

### ORAL COMMUNICATION

The EAO-SEPES joint meeting encourages researchers and clinicians to present, discuss, and exchange new research results within the field of implant therapy and related disciplines via submission of scientific abstracts. During the oral communication sessions, delegates can hear short oral presentations from the authors whose abstracts were rated highest by the Abstract Committee.

### CERTIFICATION WORKSHOP

Learn how to obtain the EAO’s prestigious Certificate in Implant-based Therapy

**SESSIONS ONLY IN ENGLISH**

**SESSIONS TRANSLATED IN SPANISH**

* P&AIJ: Prosthodontics & Aesthetic International Journey

EAO-SEPA EUROPEAN SYMPOSIUM

Three sessions will be part of the EAO-SEPA symposium:
- INTERACTIVE SURGICAL VIDEO SESSION 2
- MAIN SESSION 3
- 3D INTERACTIVE SURGICAL VIDEO SESSION 3

These sessions will be hosted jointly by the EAO and SEPA as part of the 5th SEPA European Symposium. Each session will take place on Saturday October 7th.
**Thursday October 5th**

**SATELLITE INDUSTRY SYMPOSIA**

**10:30 › 12:30**

**OSSTELL**

**ISQ as an objective key value for digital workflows and the importance of resonance frequency analysis guiding clinical decisions for complex cases**

Steven Eckert (USA), Giorgio Tabanella (Italy), Luis Cuadrado (Spain)

Moderator: Marcus Dagnelid (Sweden)

Patient focused Implant Dentistry is changing and protocols especially around immediate loading are being redefined to accommodate the benefits of digital planning/diagnostic tools. There is therefore a need for an objective tool to guide and optimize the whole implant treatment, valid for complex as well as simple cases. These speakers represent more than 30 years of combined experience with Osstell and the ISQ scale in daily practice and will in this unique and interactive lecture discuss the process of osseointegration success in various treatment indications, illustrated by cases and data.

**B.O.P.T.: innovative techniques on natural teeth and implants**

Ignazio Loi (Italy)

The B.O.P.T. (Biological Oriented Preparation Technique) is a simplified prosthetic procedure that permits to operate in clinical cases already treated at a prosthetic level.

New concepts belonging to this technique will be analysed: the controlled invasion of the sulcus, the adaptation to the emerging profiles and the selective abrasion.

To evidence the long-term stability of the aesthetic results obtained with B.O.P.T. cases will be shown step by step, as well as follow-ups.

The B.O.P.T. concepts have been transferred to an implant level with the creation of vertically millable posts. The soft tissues thickening allows to obtain a greater stability and an excellent aesthetic result in the marginal zone. Further evolution has been the realization of a new transgingival implant: PRAMA.

**17:00 › 19:00**

**Geistlich Biomaterials**

**New treatment methods in soft tissue management**

Giovanni Zucchelli (Italy), Mariano Sanz (Spain), Daniel Thoma (Switzerland)

Moderator: Christoph Hämmeler (Switzerland)

The first part of the Geistlich Symposium will focus on optimal flap designs for soft tissue augmentation, key factors for successful healing and current trends on how to handle soft tissue dehiscences. The following presentations will give deeper insights into soft tissue management procedures at implant sites and the coverage of recessions – all in the light of the question: “When do autogenous grafts remain the gold standard – and when can they be replaced by innovative biomaterial solutions?” An interactive panel discussion focusing on treatment planning of a clinical case will round off the symposium.

**Advancements and Innovation to bring predictable and cost effective solutions to more patients – introduction to a new edentulous concept**

José Manuel Navarro (Spain)

Nobel Biocare Forum – Innovative Treatment Protocols – Shortening Time to Teeth

Why & How are we doing Immediate Implant placements, development and focus on patient Joseph Kan (USA)

The session will cover contemporary clinical solutions for shortening time to teeth from immediate single tooth, emerging technology and integrated digital workflow to a new concept to treat the edentulous mandible with fixed definitive bridge in single surgical appointment.

How can digital dentistry facilitate the workflow – from planning to final restoration for optimal outcomes?

Leon Pariente (France), Karim Dada (France)

Optimize the biology and soft tissue behaviour for aesthetic end results

Eric Rompen (Belgium)
Friday October 6th
SATELLITE INDUSTRY SYMPOSIA

Ο 17:15 › 19:15

In modern dental implantology, patients and dentists expect not only a safe and predictable treatment outcome, but they also look for cost- and time-efficient solutions. In the following presentations, the presenters discuss various effective treatment concepts, and they define the requirements for a successful treatment outcome.

Achieving optimal results with immediate implant placement in the aesthetic zone
Daniele Cardaropoli (Italy)
Clinical evaluation of fixed, complete, implant-supported overdentures performed in mandible using a combination of the Straumann® Roxolid® Implants of 4 mm and conventional length
José Luis Calvo Guirado (Spain)
Successful treatment of edentulous patients using the Straumann® ProArch® concept with tilted distal implants
Helena Francisco (Portugal)
Practical experience with the Straumann® Novaloc® retentive elements in combination with removable implant overdentures
Charlotte Stilwell (UK)

Pushing the limits of minimally invasive techniques in implant dentistry
Eduardo Anitua (Spain)
Modern implant dentistry is moving toward implant treatment completion in shorter time, optimize cost and evidence-supported predictability. This trend change is the net outcome of collaboration between companies, researchers and clinicians. This human convergent work will be presented in this session where new strategies for treatment planning and execution will be the essence of cutting-edge presentations of several leading researchers and clinicians.

New insights in the management of tooth extraction
Massimo del Fabbro (Italy)
- Evidence-based clinical assessment of Endoret® (PRGF®) in tooth extraction.
- Immediate implant placement in aesthetic zone. Small details that make the difference.
- Short and extra-short implants: where is the limit?
- Biometric-guided treatment of severe atrophy in posterior maxilla: one visit surgery?
- The osteogenic potential of UnicCa dental implants.
- Prosthetic rehabilitation of short dental implants: step by step.

Saturday October 7th
INDUSTRY LUNCH SYMPOSIA

Ο 13:00 › 14:00

The way to Itaka: from vision to clinical implication
Dieter Bosshardt (Switzerland)
Ofer Moses (Israel)
Revolutionary surgical solutions while exploring implant housing biology require combination of vision, open minds, precise animal models and surgical skills.
Collaboration with experts in histology is crucial to obtain high-quality results, and their correct interpretation ultimately indicates innovative implications for academic and clinical use.

Industry lunch symposia
The industry lunch symposia provide an opportunity for delegates to attend an industry symposium while enjoying lunch in the room at the same time.

Note for industry partners:
There are a few slots for industry-led symposia still available. Please contact Delphine: d.vieljeux@eao.org
hands-on sessions

Friday October 6th

Hands-on Sessions

Morning 09:00 > 11:30 or 13:30 > 16:00

Geistlich Biomaterials

Morning 9:00 > 11:30
Use of a volume stable collagen matrix in the treatment of soft tissue defects around implants
Daniel Thoma (Switzerland)
An innovative volume-stable collagen matrix provides the opportunity to treat soft tissue defects around implants without using autogenous tissue. This hands-on workshop offers valuable insights and opportunity aplenty to train one's surgical skills with a new product.

Afternoon 13:30 > 16:00
Use of a volume-stable collagen matrix around implants in the aesthetic zone (workshop in Spanish)
Ignacio Sanz Martin (Spain)
This hands-on workshop will let you perform soft-tissue augmentation around implants using an innovative volume-stable collagen matrix. Flap design, product properties and thorough practical training are key factors for a successful outcome.

Introduction to dynamic navigation using Navident, with hands-on workshop

Morning 9:00 > 11:30
Speaker to be confirmed (Spain)

Afternoon 13:30 > 16:00
Hadi Antoun (France)
This workshop introduces the clinician to the surgical aspects of dynamic navigation using the Navident system. It starts with an introduction to the technology and workflow, followed by case presentations from an experienced implant surgeon. Theory is put into practice through a hands-on workshop with models. This will give the attendees a great learning experience, which allows clinicians to use the technology in their clinic faster and more effectively. On completion, the participant will be familiar with techniques necessary to treat patients using dynamic navigation, for partially and fully edentulous cases, and receive certification.

Nobel Biocare

Morning 9:00 > 11:30
Immediate tooth replacement using NobelActive implants – Nobel Biocare hands-on workshop
Tristan Staas (Netherlands)
Hands-on training in immediate implant placement. With the support of scientific evidence, dogmas surrounding the patient benefits of immediate implant treatment protocols will be discussed and challenged. Dr Staas will provide step-by-step guidelines for predictability in single and multiple immediate tooth replacements.

Hands-on exercise
- Step-by-step surgical sequence and clinical tips for immediate implant placement.
- Placement of a NobelActive implant in the aesthetic zone using models.
- Demonstration of provisional restoration using the new Snap Temp Abutment.
- Techniques for creating implant provisionals.
- Soft tissue management around implants.

Planmeca

Morning 9:00 > 11:30
Introduction to designing surgical implant guides with Planmeca Romexis
Alexandros Manolakis (Greece)
Join our hands-on training session to improve your implant planning workflow and its predictability with the help of the latest tools of our all-in-one software, Planmeca Romexis. During the session we will complete the implant planning with the help of a virtual patient, including a CBCT image, an intraoral scan, and a virtual crown design. After completing the implant planning, we will go through the whole surgical implant guide design process step by step. You will learn how to plan and design your own surgical guides. Prosthetic-driven implant planning is easy and smooth with Planmeca Romexis tools.

PROGRAMME OVERVIEW

GENERAL INFORMATION

Date
From Thursday October 5th to Saturday October 7th, 2017.

Venue
The EAO-SEPES joint meeting will be held at:
IFEMA FERIA DE MADRID
North Convention Centre, Hall 9
Avda. del Partenón, 5
28042 Madrid, Spain

Transport to Madrid
The Spanish capital is connected by plane with main cities in Europe and America, and by road and rail with all the cities in Spain.

FROM ADOLFO SUAREZ INTERNATIONAL AIRPORT
The airport is just 12km from the city and its public transport connections are among the simplest and fastest in the world. In addition to the usual connections by bus, metro (line 8) and taxi, the Cercanías Renfe train service connects the airport’s Terminal 4 to Chamartín and Atocha stations (line C1). The airport is just 15 minutes from city centre by train.
FROM AIRPORT TO IFEMA:
Taxi: around 5 minutes for a minimum fare of 20€
Metro: direct with line 8 for 15 minutes (1.50€)
For more information visit: www.aeropuertomadrid-barajas.com

CHAMARTIN AND ATOCHA RAILWAY STATIONS
Madrid uses Spain’s high-speed rail (AVE) service, with connections ranging between 15 minutes and 2 hr 45 mins from both Chamartín and Atocha stations to the country’s main cities (such as Toledo, Avila, Segovia, Valencia, Alicante, Barcelona, Valladolid, Saragossa, Malaga, Cordoba, Seville).
For more information visit: www.renfe.com

MADRID METROPOLITAN
The Metro is probably the fastest, most efficient and economical form of transport in Madrid. The capital has a large underground network that reaches virtually every corner of the city. Line 8 is the most efficient line, which allows you to travel directly from IFEMA to the airport (15 minutes) or from IFEMA to the city centre for 20 minutes.
For more information visit: www.metromadrid.es

Visa
Depending on your nationality, it may be necessary to obtain a visa before leaving your country. In this case, you can find all the information you need on the Spanish Ministry for Foreign Affairs and Cooperation’s website: www.exteriores.gob.es

Official language
The official language of the EAO-SEPES joint meeting is English. Translation into Spanish will be available in some sessions.

Official carrier
Negotiated rates are available for congress delegates, more information on www.eao-sepes2017.com

*PRICE VAT INCLUDED (10%)

Registration fees are based on the date of receipt of the registration. The prices indicated are per person and are only applicable if both the registration form and the payment are received before the deadlines above; otherwise the higher registration fee will be applied. On-site registration desks will open on October 4th, from 15:00 to 19:00.

The conference registration fee includes:
- admission to the joint meeting sessions, poster areas and exhibition
- joint meeting documents including the final programme, digital abstract book and congress app
- lunches and coffee breaks

EAO member registration

Please log in to your online member area to register for the joint meeting or become an EAO member and save on your registration fee!
- regular membership: 225€ (+50€ joining fee the first year)
- young professionals: 140€
- student membership EAO: 50€

(Belgium VAT of 21% included for membership)

Further info at www.eao.org

SEPES and SEPA member registration

Please note that your SEPES or SEPA membership for 2017 should be up to date before you register at the preferential rate. SEPES or SEPA members should go to www.sepes.org or www.sepa.es to register for the joint meeting.

Group registration (special rates)

- minimum: 10 participants
- deadline for group registration July 23rd
- payment upon receipt of invoice (final deadline for payment: September 1st)
- online registration via www.eao-sepes2017.com

Hands-on courses registration

Delegates can register for the morning or afternoon session for only 160€ (included VAT).

Faculty and Members’ Dinner registration

Places at the dinner are available to EAO, SEPES and SEPA members and an accompanying guest for 75€ (included VAT) per person. Tickets will be allocated on a first-come, first-served basis.

Payment

Payment must accompany your registration. Registrations received without payment will not be processed or confirmed. Your credit card transaction will be processed through EvenTime (Official Registration Secretariat).

Confirmation

Receipt of your registration and credit card payment will be acknowledged by email. If you do not receive confirmation, please contact: Samya Boufar samya.boufar@eventime-group.com

VAT

All prices (registration fees, hands-on courses, Faculty and Members’ Dinner) include Spanish VAT at 10% as of March 2017.

Invoice

An electronic invoice will be emailed to you. The invoice will be issued within a week of registration and cannot be changed, so please make sure you have provided the correct information (company name, address and VAT number if applicable). Please direct any enquiries to Samya Boufar: samya.boufar@eventime-group.com

Cancellation policy

All registration cancellations must be made in writing (by email) to Samya Boufar: samya.boufar@eventime-group.com

UP TO AND INCLUDING JUNE 30TH.

You will receive a reimbursement of 50% of the fees paid. If you have not paid prior to cancelling, 50% of the registration fee will still remain due.

FROM JULY 1ST.

No refund. If you have not made payment before that date, the total registration fee will still remain due to the congress office. All refunds will be issued after the congress. Queries will not be accepted after October 27th 2017.

Name change

Registered participants who are unable to attend the congress cannot nominate a substitute participant. Name changes are not permitted.
DISCOVER MADRID

PROGRAMME OVERVIEW

Shopping
Shop windows, displays and shelves present such an extensive variety that they are sure to catch the interest of every passer-by. The wide range, high quality and infinite and attractive possibilities on offer make shopping in Madrid an incredibly tempting experience. Visitors can find products to suit every taste and budget, in locations ranging from the exclusive showrooms of the Salamanca district to traditional stores in the city centre.
For more information visit: www.esmadrid.com

Gastronomy
Mediterranean cuisine is inextricably linked with variety. Visitors can choose between simple tapas, innovative restaurants and exotic menus. Madrid boasts over 5,000 restaurants which cater to the most discerning palates and present unique flavours. The city can be considered a melting pot of the world’s most diverse cooking traditions and, of course, the best Spanish specialties.

Regional cuisine is well represented in Madrid, and a near limitless range of stews, roasts, salads, desserts, wines and liquors can be found among the city’s gastronomic offerings.

Culture
More than one hundred museums and two hundred historical monuments perpetuate the history and artistry of Madrid’s inhabitants over the centuries. The children of Madrid (Madrilenos), by birth or adoption, have an illustrious legacy including Cervantes, Velázquez, Goya, Picasso and Dalí.

Madrid offers its visitors a unique travel experience. Why not tour Madrid’s famous ‘Golden Triangle of Art’? The city’s three most important museums are within walking distance along the landmark boulevard, Paseo del Prado. Visit the extraordinary collections of the Prado Museum, the Reina Sofia Museum and the Thyssen-Bornemisza Museum.

You can even experience the cultural and historical legacy of Madrid in its streets, where many eras of history are tangible at once. Discover the breathtaking architecture of the Habsburg empire and the influence of the Bourbons, and enjoy the artistic achievements of Medieval Madrid.

Romantic Madrid
Madrid is a city for romance, for lovers, nature-lovers, and art-lovers. Fall in love with this marvellous city, and visit the tranquil and romantic Debod Temple, the Sabatini Gardens, and the rooftop of the Círculo de Bellas Artes.

Make your stay in Madrid during the EAO-SEPES joint meeting an unforgettable experience.

Thanks to our reservation of more than 800 rooms, we can provide you better rates than you can find on the internet!

We have reserved rooms at a variety of hotels, so that you can visit Madrid at your ease and according to your budget.

To give you an idea, please find a selection of hotels and areas below, or visit: www.eao-sepes2017.com to find out more!
FACULTY AND MEMBERS’ DINNER

Thursday October 5th 2017

Casino de Madrid

The Casino de Madrid was first founded in 1836, when a group of young romantics and progressive liberals of Spanish society decided to search out a quiet and peaceful place removed from the world of politics. The Casino now houses an exquisite collection of paintings and sculptures, making it a site of Artistic and National Heritage.

Don’t miss the opportunity to join congress speakers and other delegates at the 2017 Faculty and Members’ Dinner.

The renowned chef, Paco Roncero, winner of two Michelin stars, heads the Casino’s restaurant and catering service. Enjoy fine dining at its best in the breathtaking halls of the Casino de Madrid.

**NOTE:** Please note that a jacket and tie are required for access to the venue.

**Note**

Places at the dinner are available to EAO, SEPES and SEPA members and an accompanying guest for 75€ per person. Tickets will be allocated on a first-come, first-served basis.

ABOUT THE EAO

History
The European Association for Osseointegration (EAO) is a non-profit organisation which was founded in 1991. It was formed as an international, interdisciplinary and independent science-based forum for all professionals interested in the art and science of osseointegration. As one of the leading associations in the field of implant dentistry in the world, the EAO aims to improve the quality of patient care by bridging the gap between science and clinical practice.

Mission
- promote and facilitate clinical applications of osseointegration for the benefit of patients all over the world
- promote the advancement of treatment methods in reconstructive surgery and prosthetic rehabilitation based on the principles of osseointegration and related disciplines
- promote and pioneer research into improved clinical procedures for rehabilitation and osseointegration
- promote international exchange of knowledge and understanding of the techniques and research in the field
- promote the publication of research findings and other materials for the continuing education and benefit of members and interested organisations

Students and young professionals
The EAO is glad to offer students registered in full-time education and young professionals greatly discounted membership rates.

Additionally, students and young members who choose to join the EAO can register for the annual congress at a preferential rate, and will be given a chance to extend their professional network and meet colleagues from all over the world to share their experiences and ideas.

Our educational activities

Master Clinician Courses
The Master Clinician Course series was launched in 2015, and have since visited places like Paris, Zurich and Geneva, where participants have been hosted by internationally renowned master clinicians (Professor Khoury; Professor Hammerle and his team; Dr Valentini and Professor Chiapasco; Professor Irena Sailer and her team).

Two courses are held every year: one in March focusing on surgery, and the other in December dealing with prosthodontics. Find out more about the upcoming courses at: www.eao.org/master-clinician-courses.

Certification Programme
As part of the EAO’s long-standing commitment to education, the association launched its Certificate in Implant-based Therapy in 2010. EAO certification officially recognises the skills and expertise of recipients. It is the first and only Europe-wide standardised assessment of knowledge in implant-based therapy. Certification is open to any dentist or maxillofacial surgeon worldwide – not just members of the EAO.

For more information, please visit www.eao.org/certification-programme.

EAO Postgraduate Diploma in Implant Dentistry
The EAO’s Postgraduate Diploma in Implant Dentistry complements the EAO Certification Programme and provides an additional service to EAO members and the wider dental community.

Launched in June 2016, the programme is made up of six modules to be completed over a three-year period. Each of the modules includes a three-day Live Learning Event at one of Europe’s most prestigious universities (Malmö, Groningen, Düsseldorf, Zürich, Madrid and Lisbon). Visit www.eao.org/education-programme to register your interest.

ABOUT SEPES

History
The Spanish Society of Prosthodontic and Aesthetic Dentistry (SEPES) is a scientific association that brings together professionals in the field of odontology, focusing mainly on dental aesthetics and prosthetics. SEPES was founded in 1970 and is currently one of the most relevant and prestigious scientific associations in odontology in Spain.

SEPES’ commitment to furthering and disseminating scientific research has attracted over 4,500 members. Since our foundation, many odontology professionals have helped contribute to the evolution of dental treatment in aesthetics and prosthetics in our country.

Mission
- to represent all professionals in the field of odontology who are working or collaborating in restorative and prosthodontic treatments
- to promote multidisciplinary meetings, and to foster and maintain scientific networks among national and international organisations
- to provide a forum for professionals to extend their training and update their knowledge
- to make general information about oral health and specific information about prosthetic treatment and maintenance available to the wider public
- to disseminate and update scientific knowledge in the field of aesthetics and maxillofacial and oral prostheses
- to respect and defend the rights of its members and ensure strict adherence to ethical guidelines
- to foster relations with the industry in order to bring technological advances to clinicians, laboratory technicians, dental hygienists and support staff

SEPES Juniors
SEPES members under the age of 30 are eligible for SEPES Junior membership. SEPES Juniors are exempt from annual membership fees, and are entitled to preferential rates for all SEPES courses.

Online access to Revista Internacional de Prótesis (International Prosthetics Journal) is also available to SEPES Juniors. Members under 30 who graduate from courses which last over two years are also given access to the online version of the Journal of Aesthetic Dentistry published by Quintessence.

Student members of SEPES are eligible for discounted rates for the EAO and SEPES joint meeting. Early bird rates are only 150€

What we do
Multidisciplinary, face-to-face training in odontology
- our ANNUAL MEETINGS regularly attract almost 2,500 attendees
- young national and international speakers discuss various aspects of odontology at our symposia on SEPES VALUES
- each year the SEPES SPRING conference hosts international experts in prosthetics and aesthetics
- the SEPES WINTER MEETING features presentations and round-table discussions of a variety of clinical cases

Continuous training available year-round with online multidisciplinary courses

Research grants and awards
- a number of grants are available for research in prosthetics and aesthetics
- awards for the best clinical and scientific communications are presented each year at the annual congress
- the best oral communication presented by a junior member is awarded a SEPES training grant
- the SEPES Gascón prize is awarded to the best original study on prosthetics and aesthetics

Clinical and scientific publications
Members can access various clinical and scientific cases published in odontology journals.
